

SIMULATORSTATION

MSFS Connection Guide

A clean, step-by-step guide to connecting the SimulatorStation mobile app with Microsoft Flight Simulator on your PC.

CONNECT YOUR MOBILE APP TO MSFS

Download the Bridge • Run the Server • Enter your details
• Connect

Before you begin

- Have Microsoft Flight Simulator running on your PC.
- Keep your mobile device and PC on the same Wi-Fi network.
- If you use SimBrief, IVAO, or VATSIM, have your relevant ID ready.

QUICK START

1 Download the Bridge 2 Run the server 3 Enter credentials 4 Connect

STEP 1

Download the Bridge File

Download the SimulatorStation Bridge ZIP file to your Windows PC. Extract the downloaded ZIP folder before continuing.

DOWNLOAD BRIDGE FILE

After downloading: Open the ZIP file → extract it to a convenient location on your PC → open the extracted folder.

The file you need to run is:

`SimulatorStation_Bridge.v1.exe`

STEP 2

Run the Bridge Server

Open the extracted folder and double-click SimulatorStation_Bridge.v1.exe to start the bridge server.

01	Open the extracted folder Locate the Bridge server files.
02	Run SimulatorStation_Bridge.v1.exe Double-click the executable.
03	Keep the black command window open Leave it running in the background while you fly.

Important: The bridge server must remain open in the background to maintain communication between MSFS and the mobile app.

Next, make sure your phone/tablet and the PC are connected to the same Wi-Fi network.

STEP 3

Enter Your Connection Details

Open the MSFS setup screen in the mobile app. Enter your PC's local IP address, your SimBrief ID, your IVAO or VATSIM ID, and your Activation Code. Then tap Connect.

11:55 AM Sun 30 Aug

MSFS

PC IP Address
192.168.1.115

Simbrief ID
682445

IVAO or Vatsim ID
657468

Activation Code
.....

Connection Tutorial: [Click here](#)

Enter your own PC IP address and account IDs. The values visible in this example are from the screenshot and are shown only as a visual reference.

STEP 4

Need an Activation Code?

If you do not already have an active subscription, tap **Subscribe Now** in the app. Choose the access duration that suits you and complete the purchase.

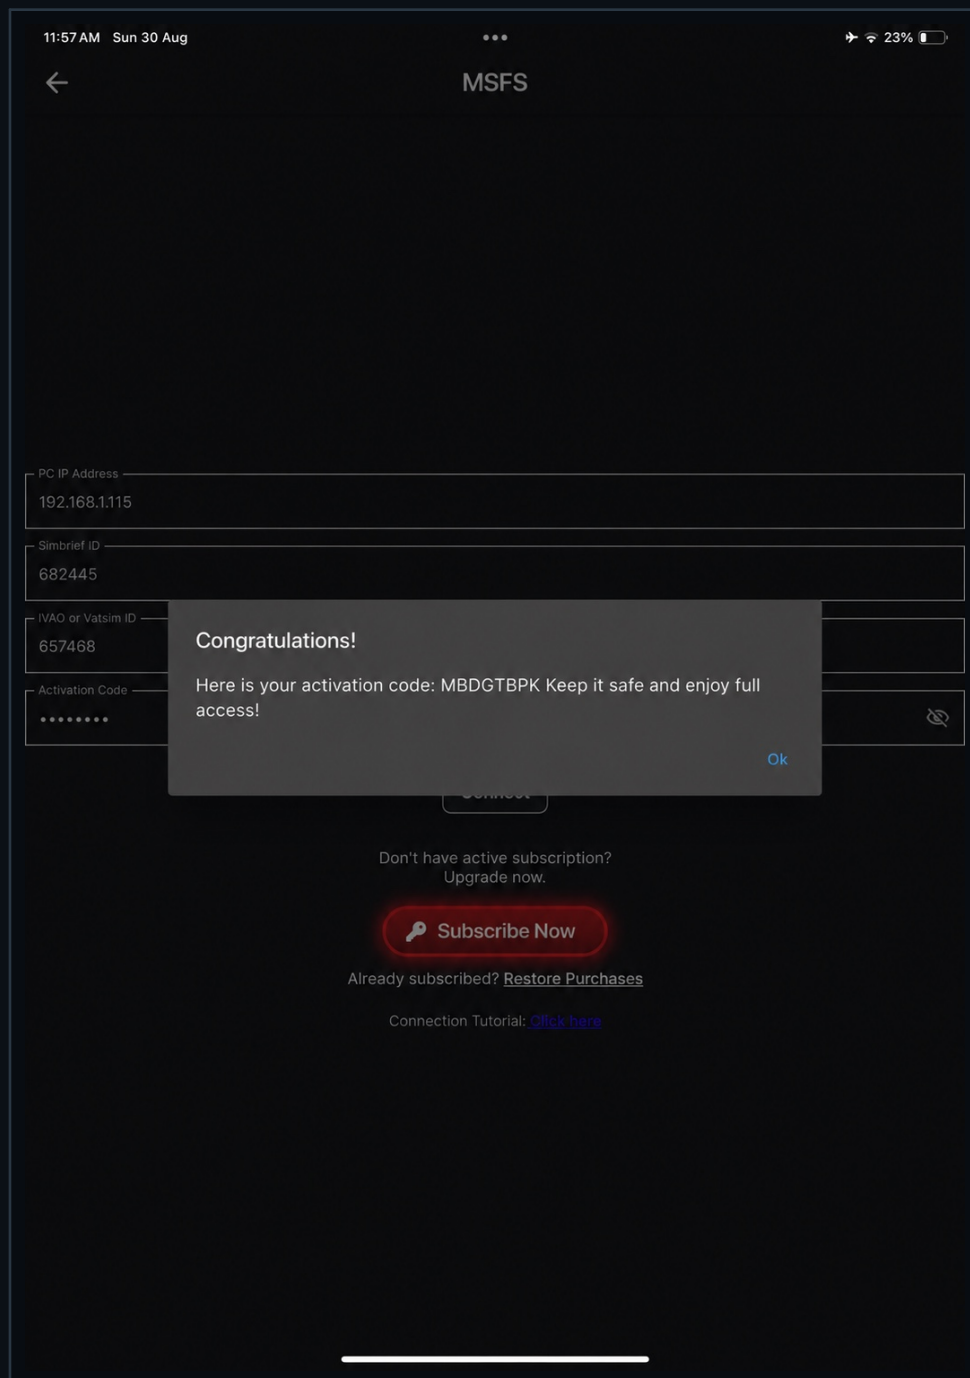

Choose Monthly, Yearly, or Lifetime access, then complete the purchase through the app.

STEP 5

Your Activation Code

After a successful purchase, the app will display your Activation Code. In the example below, the code appears in a confirmation message. Tap OK and return to the MSFS setup screen.

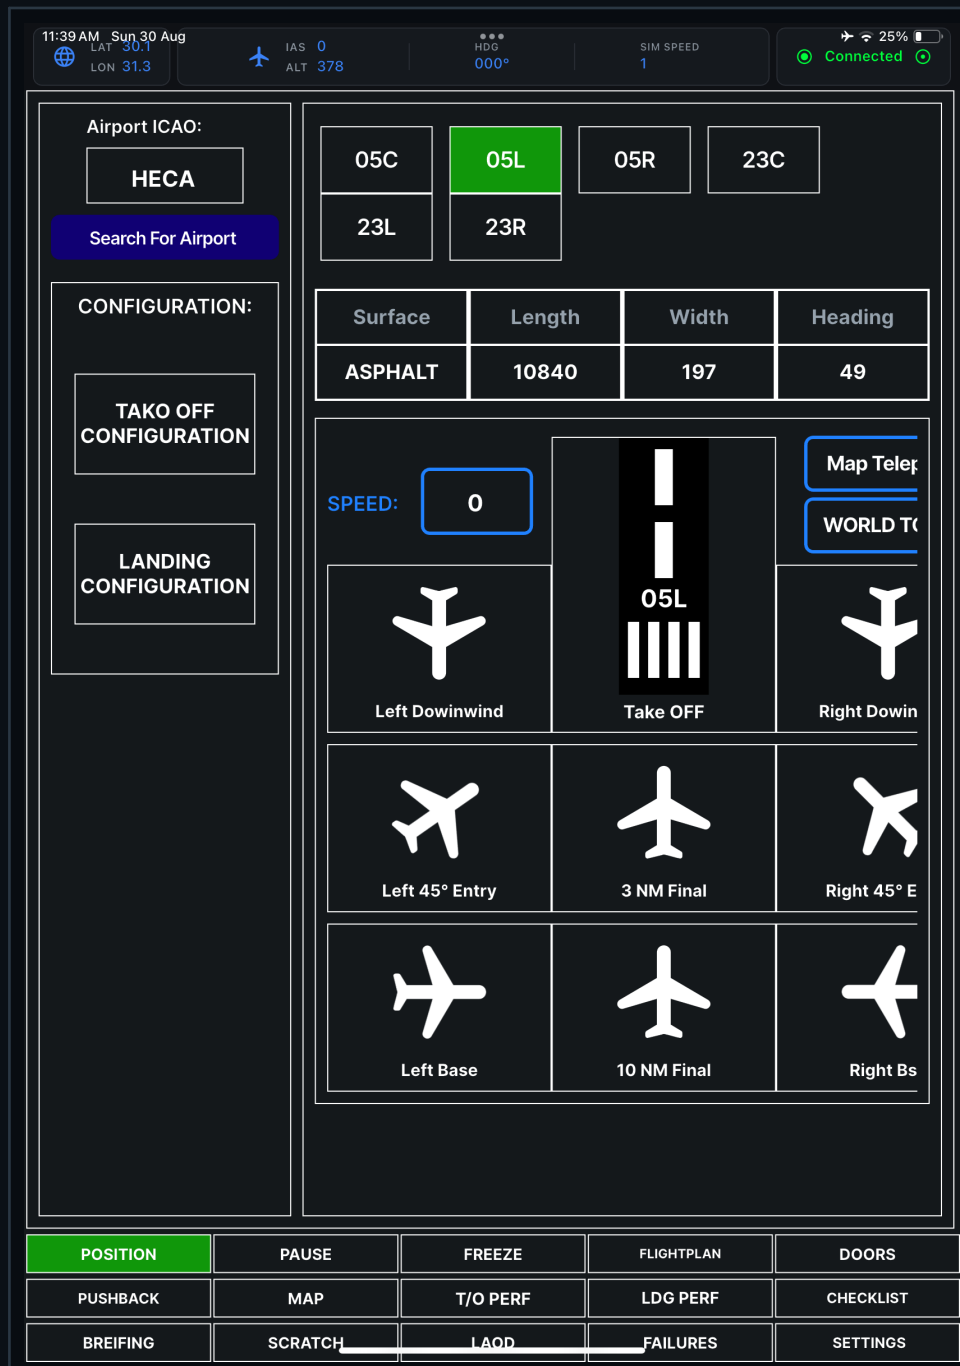

Good to know: The Activation Code is placed into the Activation Code field automatically after the purchase. Keep the code safe for future use.

STEP 6

Confirm the Connection

Return to the main SimulatorStation screen and connect. When the bridge and app are communicating correctly, the status indicator at the top will show Connected in green.

CONNECTED — YOU'RE READY TO FLY

Enjoy your flight and have a great time with SimulatorStation! →
